Carla Jean Pantaleon

An experienced frontend developer focused on anything web

Experience

Frontend Developer, **ALC TECHNOLOGIES INC.**   Aug 2024 - Present

- Developed and launched new websites from scratch using WordPress, HTML, SCSS, and JavaScript. Implemented fully custom themes with mobile responsiveness and cross-browser compatibility.
- Built a reusable boilerplate theme with style guide and UI components to standardize and accelerate future company site builds.
- Authored documentation for each website to support admins and external partners, enhancing clarity and maintainability.
- Collaborated closely with UI/UX team and Head of Design to translate high-fidelity designs into polished, functional front-end layouts.

Frontend Developer, **White Cloak Technologies**   Oct 2021 - Jun 2024

- Developed a portal for clients to facilitate communication, report generation, and feedback collection for individual team member using NextJS, MongoDB queries, and TailwindCSS.
- Developed business banking platform that serves as a centralized solution for different banking services like Bills Payment, Fund Transfer, Branch Visit, and more for small to large enterprises using ReactJS and Redux.
- Maintained web applications of multiple real estate clients that involves regular updates, content management, and SEO optimization using GatsbyJS.
- Helps facilitate agile software planning and development activities such as daily standup meetings, sprint planning, reviews, retrospective meetings, and backlog refinements.

Digital Web/Operations Assistant, **Digital Boomerang**   May - Oct 2021

- Maintained multiple microsite across different CMS platforms.
- Performed 404 error checks and fixes using Screaming Frog.

Web Developer, **LH&Creatives, Inc.**   May 2018 - Apr 2021

- Developed and maintained websites using Wordpress.
- Performed quality assurance tests on various sites to ensure cross browser compatibility and mobile responsiveness.
- Implemented WordPress queries and SEO Optimizations.
- Experienced working with CSS Preprocessor such as SASS using BEM Patterns.
